

## DEDICATED RETOOL DEVELOPER

# MIGRATING RECRUITMENT DASHBOARD FROM AIRTABLE TO RETOOL

## OVERVIEW

Our client, a growing recruitment firm, was using **Airtable** to manage their recruitment dashboard. However, they faced **scalability and pricing challenges** as their data and team size expanded. They needed a **cost-effective, flexible, and scalable** solution to streamline their recruitment workflow.

## CHALLENGES

### High Airtable Pricing

The increasing cost of Airtable's paid plans was becoming unsustainable.

### Limited Customization & Usability

The client required more control over data views and workflow automation.

### Data Scalability

Managing large datasets on Airtable was becoming cumbersome and slow.

## SOLUTIONS

### Dynamic Data Views

Customizable views for candidate tracking, interview scheduling, and job postings.

### Automated Workflows

Streamlined candidate onboarding and interview processes.

### Improved Data Security

Securely hosted on AWS for better performance and compliance.

### Cost-Effective Solution

Reduced dependency on expensive SaaS tools with a Retool-powered workflow.

## RESULTS

- **40% cost reduction** with significant savings compared to Airtable's pricing.
- **Increased efficiency** with faster recruitment workflows and better UI/UX.
- **Customizable and scalable** to adapt to evolving hiring needs without additional licensing costs.

## CONCLUSION

By transitioning to **Retool**, our client now enjoys a **highly scalable and budget-friendly** recruitment dashboard with **enhanced functionality and performance**. This shift not only optimized their hiring process but also eliminated the financial burden of Airtable's rising costs.
